

Wall/Pole Mounting Bracket

The MB-LDC-PWB-001 Wall/Pole Mounting Bracket is manufactured from stainless steel and has been designed for securing the HellermannTyton UFC, FDN and FML closures to walls and poles.

The bracket is a simple design which is quick and easy to install. The wall bracket is secured to the wall/post using 4 screws. The unit bracket is fitted on to the closure and secured around the cover using the 2 metal straps and securing clips. The unit bracket has 4 x fixing slots which slide in to place on the wall bracket and it is then secured in place using 2 x 25mm M5 screws.
