# AFL HYPERSCALE.

# Fibre Raceway Cabinet Top Support Kit (Fixed & Adjustable)

Fiber racewaysystem is designed to protect, manage and route fiber optic cable assemblies and patch cords to and from network cabinets, optical distribution frames (ODFs) and other terminal devices within data centers. Fiber raceway system provides the necessary fiber cable management to ensure network reliability by:
• Maintaining proper fiber cable bend radius control at all points
• Providing fiber cable physical protection from external elements
• Enabling easy access to fiber cables
• Providing necessary fiber cable slack management
• Properly defining routing paths throughout the data center
Fiber racewaysystem offers double-rod supporter kits that can be used to carry the cables horizontally throughout the system.

## FEATURES/BENEFITS

• Easy and Quick Tool-less assembly
• All plastic parts reach UL94-V0 level of flammability
• RoHS compliant
• Zinc coat steel, 2.5mm thickness
• Up to 80kg load capacit
• Installation Temperature : -25° ~ +60℃

## APPLICATIONS

• Data Center
• Service Provider facility

# AFL HYPERSCALE.

## ORDERING INFORMATION

| PART NUMBER | PRODUCT DESCRIPTION |
|---|---|
| AFLA03041 | Fixed Cabinet Top Support Kit(for W=240mm Fiber Raceway) |
| AFLA03021 | Adjustable Cabinet Top Support Kit(for W=120mm Fiber Raceway) |

## FURTHER INFORMATION

• For additional information please contact your sales representative
• To view the product 360 visit the product page (Scan the QR code or visit the link below)
