## Coiling device for fiber optic cable

Manages the coiling of aerial fiber optic cables

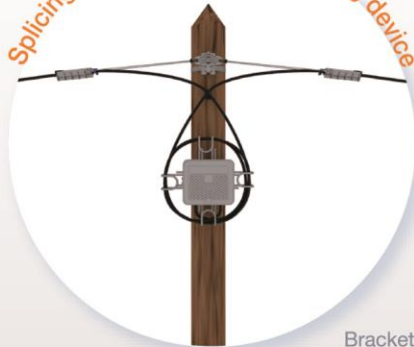

-  Blocking coiling device
-  Storage coiling device

## Advantages

-  Variable geometry system
-  Protection of the cables
-  Easy and quick installation
-  Lightweight and strong materials

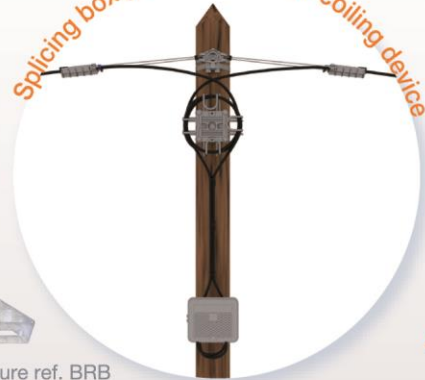

*Splicing box fastened on the coiling device*

### MOUNTING SUGGESTIONS

*Splicing box placed under the coiling device*

Bracket for splice enclosure ref. BRB (optional)
