GOLD SUPPORT

Premium Care – Gold Support

Premium Care is our comprehensive maintenance program for Fluke Network's products. It provides unmatched support for customers wanting to minimize business downtime and ensure a high return on investment. The service agreement includes annual calibration (where relevant), replacement accessories, repairs with priority service, and access to loaner units during repairs. Gold support is included for select discounted products or can be purchased separately. Contact your Fluke Networks representative today to find out more.
