

Sticklers™ CleanWipes Optical Grade Wipes

Lint-free wipes for connectors and bare fibres

- Optical-grade, 5 cm x 10 cm lint-free wipes engineered for cleaning fibre for splicing and cleaning fibre optic connector end-faces
- Exclusive electrostatic dissipating cleaning surface
- Resists tearing and shredding
- High-modulus wipes with high absorbency
- Makes “wet/dry” cleaning simple and cost-effective

For best results, use with:
Sticklers™ Fibre Optic Splice & Connector Cleaner

- A. CleanWipes 640** optical-grade wipes are packaged in an inner box with eight colour-coded cleaning slots. Slots allow for multiple cleans with no cross-contamination. Inner box has a dissipative lining to remove triboelectric charging to eliminate static caused contamination. Highly-visible plastic outer box keeps wipes clean and dry.
Slots accept LC and SC duplex.
- B. CleanWipes 600** optical-grade wipes in portable cleaning box is perfect for your tool box. Box features six colour-coded cleaning slots for multiple cleans per wipe.
Slots accept LC and SC duplex.
- C. Outdoor CleanWipes** single wipes provide fast, consistent and convenient end-face cleaning even in harsh environments. Each wipe is protected in a hermetically-sealed package that keeps it clean and dry until opened.
- D. CleanWipes 90** optical-grade wipes in convenient mini-tub ideal for the benchtop. Engineered for use on bare fibre before splicing and also for cleaning fibre optic jumpers.
 NSN: 7920-01-547-6547
- E. CleanWipes Flat Pack** - 50 optical grade wipes to a plastic bag. Ideal for cleaning bare fibre and fibre optic connector end-faces.
