Technical Manager

S1 C2 / C3 / C4

Introducing Enoc System S1 server cabinets in horizontally divided versions, ideal for colocation setups.

S1 C2 / C3 / C4

Enoc S1 C2/C3/C4 colocation server cabinets are built on the same frame as the standard Enoc S1 server cabinets. Adopting the same stability, with static load up to 1500 kg, and the same interior design, meaning all standard accessories will fit.

The S1 C2/C3/C4 is available in 600 and 800 widths, 1000 and 1200 depths, 2000 and 2200 heights. Each size can be built to 2, 3 or 4 compartments. Each compartment separated with a shelf.

Technical information

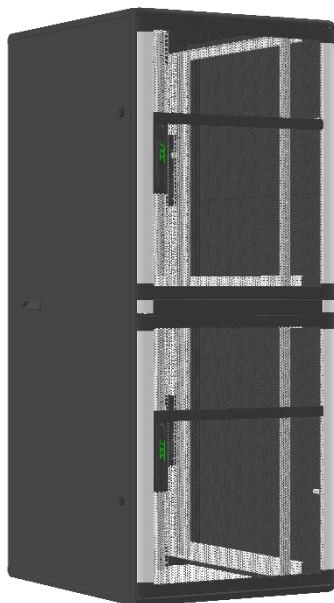

- S1 standard frame.
- 2000 mm and 2200 mm high cabinets in 2, 3 or 4 compartments.
- C2 (2 compartments), 2000 mm – 2 x 20 HU, 2200 mm – 2 x 22 HU
- C3 (3 compartments), 2000 mm – 3 x 12 HU, 2200 mm – 3 x 14 HU
- C4 (4 compartments), 2000 mm – 4 x 9 HU, 2200 mm – 4 x 10 HU

Front and back door

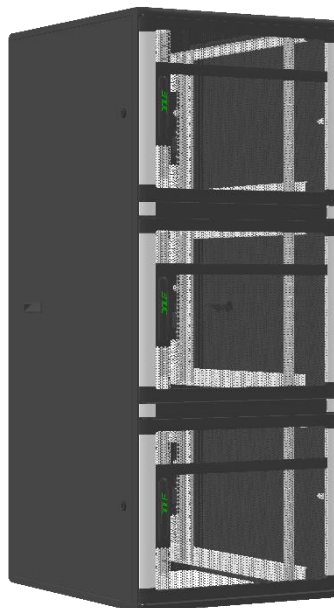

- 1mm perforated steel sheet built into an aluminium frame. 85% perforation on perforated area.
- LS 85 ergonomic locking handle with C101 safety cylinder. Can be adapted for other lock systems.
- Integrated quick lock system allows door to be removed without use of tools.
- Door opening angle >180° in single enclosure configuration. Right hinged, can be re-hung to be left hinged.

Sidepanels

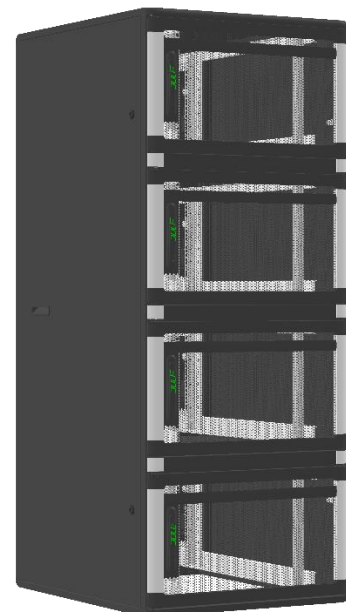

- Sheet steel side panels, easy to detach and lockable from inside. One full size panel, not divided into 2/3/4 compartments.
