Celebrating 30 years with up to 30% savings on 30 fiber testers

Network professionals, we've had your back since 1992.

Known for ruggedness, accuracy, and ease of use, for 30 years, Fluke Networks' tools have been the go-to for network cabling installers, architects, and network technicians or engineers.

Join us in celebrating with these savings of up to 30% on 30 of our bestselling fiber products. With these additional discounts, now is the time to expand your cable testing capabilities from copper to fiber, or add OTDR testing, OLTS testing or fiber inspection to your existing fiber capabilities.

30 Products on Sale Now!

Versiv™ Copper and Fibre Kits

The world's most efficient cabling certification platform

The modular Versiv™ family reduces the cost of copper and fiber certification by two-thirds. Future-ready design supports Cat 5 to Cat 8, fiber optical loss and inspection, plus OTDR testing, all on one versatile platform. Taptive™ touchscreen interface helps to ensure jobs are done right the first time. Manage jobs and testers from any smart device over Wi-Fi with LinkWare™ Live.

OptiFiber™ Pro OTDR

Make novices experts and make experts faster

Automated trace analysis and setup supports both troubleshooting and Tier2 certification applications including data centers, PON and outside plant. Advanced features include Manual Expert mode, gesture-based in-depth trace analysis and SmartLoop™ for twin core bi-directional testing.

CertiFiber™ Pro OLTS

Reduce the cost of certification by two-thirds

Industry's fastest Optical Loss Test Set (OLTS): certifies two fiber cores at two wavelengths in under three seconds. Manage jobs and testers from any smart device over Wi-Fi with LinkWare™ Live. Taptive™ touchscreen interface provides ease of use and our set reference wizard eliminates incorrect setup and "negative loss" errors. Encircled Flux compliant for multimode; and supports double ended pass/fail certification of fiber optic connector endfaces.

FiberInspector™ Pro

Grab the most efficient fiber inspection solution

Multiple camera design provides a Live View of single fibers and MPOs from full trunk to individual end-faces. Optional automated pass/fail results in seconds. Integrates with Versiv™ and LinkWare™ for simple operation and documentation, or with mobile phones for display. Compact, ergonomic design with autofocus.

SimpliFiber® Pro

Verification and troubleshooting made easy

Simple-to-use fiber-loss tester with advanced time-saving features. Choose from various kits with configurations to meet your fiber verification, inspection, and cleaning needs. SimpliFiber® Pro Optical Power Meter and Fiber Test Kits include all the tools necessary to verify and troubleshoot optical fiber cabling systems, measure loss and power levels, and inspect and clean connector end-faces. With advanced, yet easy-to-use, capabilities that reduce test times, SimpliFiber® Pro is simply the best first-line fiber test kit on the market.
