

Skarvskåp NS4

Skarvskåp NS4

Art.nr.: 30775009

E-nr.: 5060869

EAN 13: 7330000107854

Skarvskåp för skarvning och/eller förgrening.

BESKRIVNING

NS4 which is made of powder coated galvanized steel is suitable for use in all types of splicing and / or branching.

Suitable environments are indoors or outdoors in street cabinet or similar.

NS4 has the capacity for splicing up to 192 fibers in single fiber type (four splice cassettes). NS4 is designed for midspan without any accessory needs to be procured.

NS4 is supplied with the ability to splice 96 fibers (two splice cassettes) and connect two trunk cables with dimensions up to 22 mm. NS4 supplemented with connections to the micro cables or micro ducts to be connected, see Accessories for NS2 and NS4. NS4 can accommodate a total of four connections in various designs this flexibility means that NS4 can be used in most combinations of splicing and branching of fiber optic cables. For additional splice capacity up to 192 fibers supplemented NS4 with two splice cassettes.
