

U-Series MPO Adapter Plate

Description

U-Series MPO adapter plates are used to interconnect MPO trunks, patch cords, or ruggedized MPO fanouts. The MPO adapter interface reduces rack space usage. Substituting an MPO cassette with an adapter plate reduces the number of interconnections and improves both power budgets and network economics. There are up to 12 MPO adapters per plate with the option to house 5 adapter plates in U-Series 1RU housings and 12 adapter plates in U-Series 2RU housings. Available in both KeyUp/Key-Down (Polarity A/C) and Key-Up/ Key-Up (Polarity B).

Features and Benefits

- Up to 12 MPO adapters per plate
- 5 adapter plates in 1RU, 12 adapter plates in 2RU
- Key-Up Key-Down adapters (standard polarity A/C)
- Key-Up Key-Up adapters (polarity B)

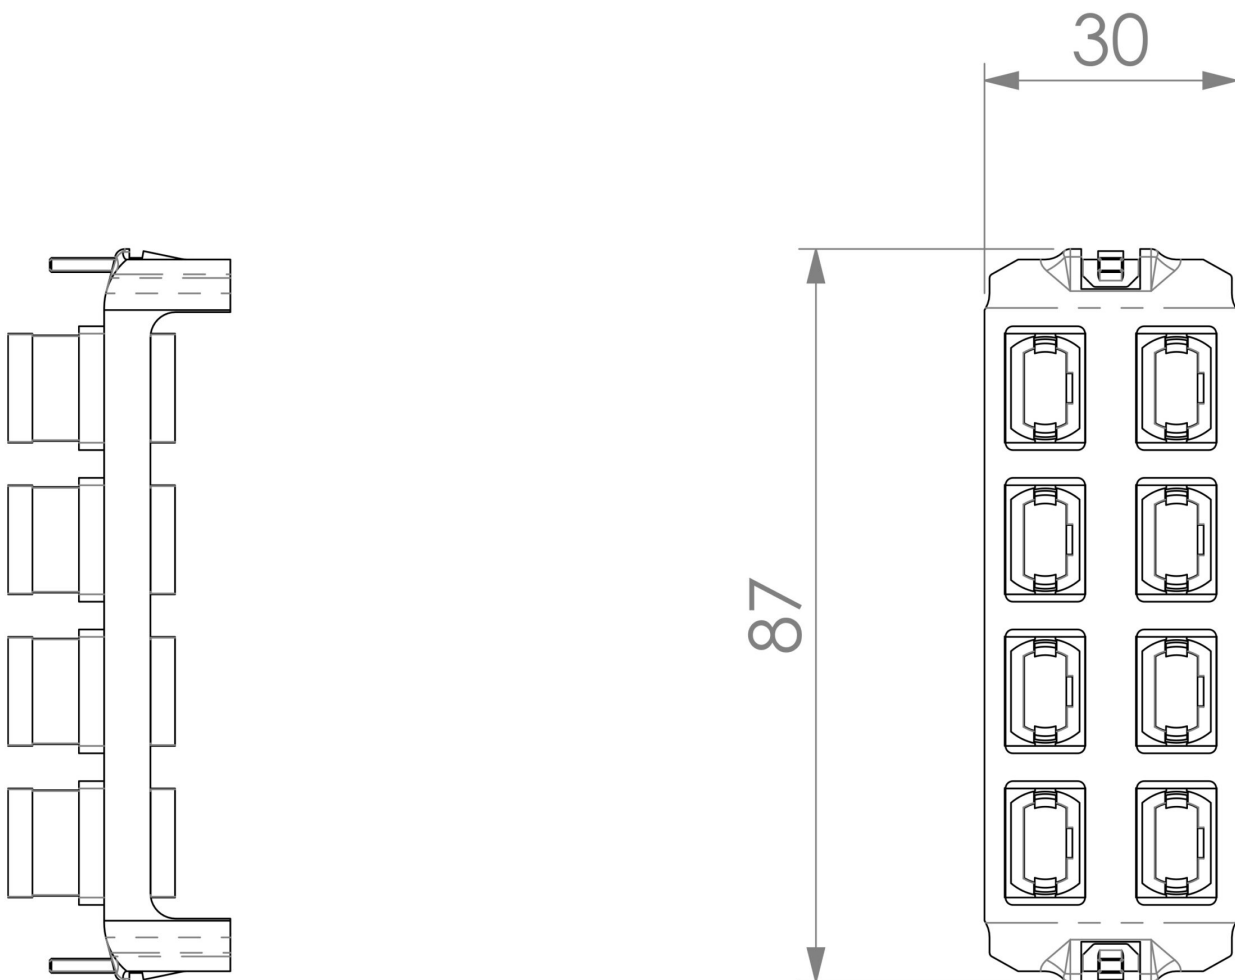

Applications

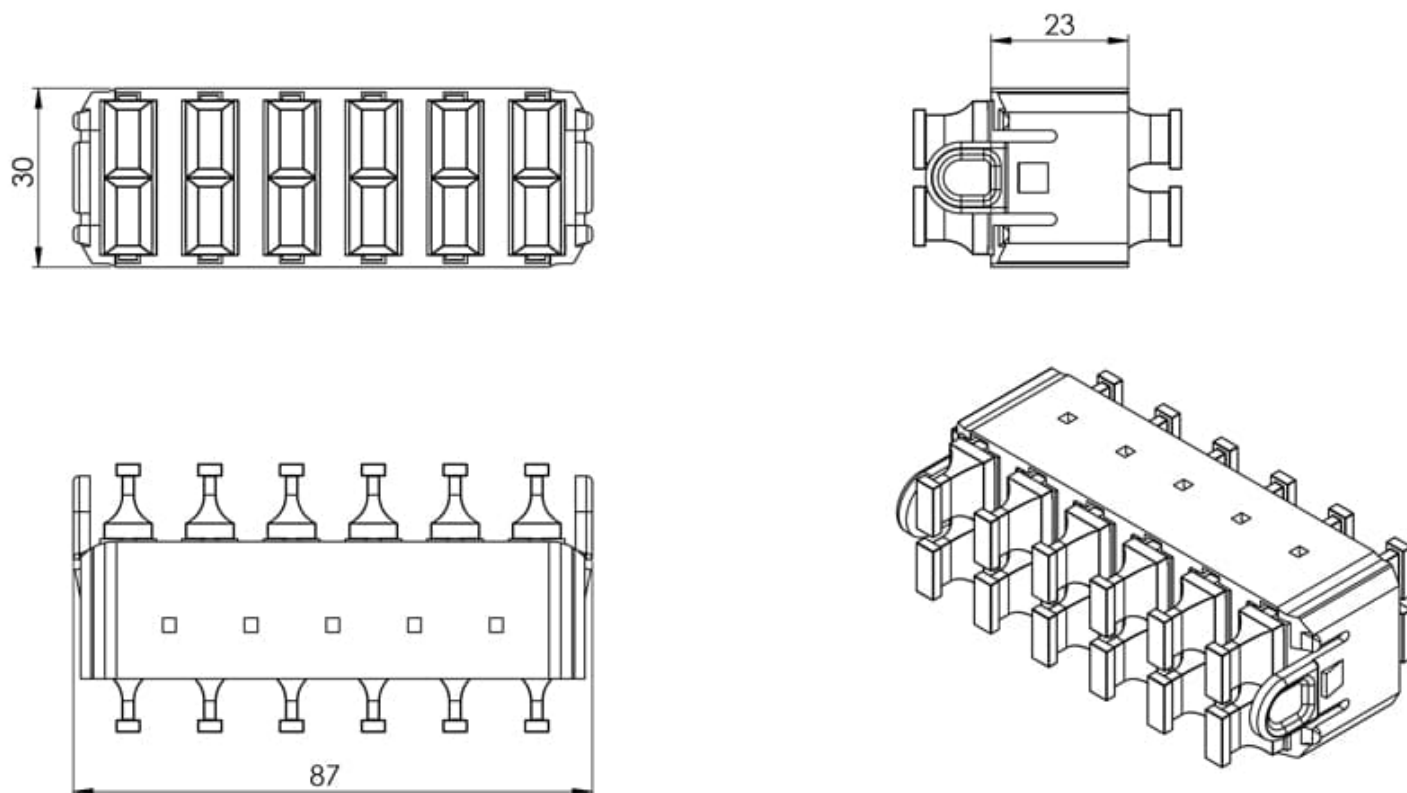

- Data center
- Storage Area Networks (SANs)
- Director switch cabling solution

Specifications

Element	Characteristic
Fiber counts	8 Port: Minimum 64f / Maximum 192f 12 Port: Minimum 86f / Maximum 288f
Fiber types	SM 9/125 G.657A1, MM 50/125 OM3/ OM4
Material	ABS
Color	Black
Dimensions	30mm (W) x 23mm (D) x 87mm (H)
Operating temperature	-20°C to +60°C
Storage temperature	-20°C to +60°C
Materials compliant to	IEC 61754-7-1:2014 RoHS, Reach / SVHC
